

ABSTRACT OF THE DISCLOSURE

A method of paying the fee of recycling a used product is disclosed, which includes the steps of managing ID information of a recycle certificate issued and sales information indicating the recycle certificate sold to a discharger in a corresponding relation with each other to form recycle certificate information, calculating a recycle certificate sales price based on contents of the recycle certificate information and demanding and receiving the calculated recycle certificate sales price, and paying the demanded recycle certificate sales price. As a result, the account for the fees of the product recycle among plural entities involved in the product recycle can be settled both accurately and properly.
